Mr. Alberto Lastra Power
Director de la Oficina de Gerencia de Permisos

Dear Sir,

Thank you for your time in addressing this matter. Enclosed please find photographs that were taken June 21, 2011, at the north well field of the **AES** property depicting how the Agremax was used in constructing this road. I am looking for any ***application, schematics*** or ***other information*** filed by AES to obtain either local and/or Commonwealth permits to build this road. We are also interested in obtaining from the issuing agency(ies) a ***copy of the application documents*** plus the ***approvals given*** to AES.

One of the photographs shows that a general permit was issued to AES for this type of construction permit number **OGP-71-441-000-004-12-000**. It would be great if I can obtain from that issuing agency the agency's file containing the permit application and the approvals that were given for this project. Also, if additional permits were needed for the construction of this road (from either Guayama or the Commonwealth) I would also appreciate your help in getting a copy of whatever permit was issued to AES plus whatever information was submitted to the permitting entity by AES.

Thanks for your help.
